

→ Rack mountable keyboard

→ K-645

Ordering code: K-645

→ Compact rack mountable keyboard with 101/102 keys

: IP65 from upper/front side
: Built in 4H dimension, fixing screws included

: Power consumption 20 mA_{TYP}
: Dimensions:
482.6 x 177.8 x 42.5 mm,
weight 1290 g
: PS/2 version

→ Technical details

→ Protective foil

Keyboards with short travel switches are protected by a foil with printed layout is glued on top of the metal mask. The foil is made of high quality textured polyester film and embossed with a screen printed polyester film. It is chemical, abrasion and scratch resistant with a long flex life.

Foil properties:

: Foil material:
AUTOTEX® V150
: Profile texture:
velvet
: Thickness:
150µm ± 10%
: Switch life:
5×10⁶ flexes (typical)
: Tensile strength:
160-250 MPa

Short travel keyswitches

: Type: OMRON B3F-4005
: Key travel: 0,3^{+0,2/-0,1} mm
: Lifetime: 1×10⁶ operations (typical)
: Actuating force: 255 ± 69 cN

Colour

Standard colour
All K-LINE modules are available in standard colour:
: PANTONE Warm Gray 2C
